F-15

No Gas. No Hose. No Competition.

34° Angled 15 Ga. Finish Nailer The World's First Cordless Pneumatics

SENCO's F-15, featuring Fusion Technology, has the power and utility of a pneumatic tool combined with the convenience of a cordless tool. Our patented design provides an instant shot when the trigger is pulled with no ramp-up time. Perfect for trim crews, remodelers, punch-out, or anyone who does not want to deal with the hassle of a hose and compressor. Save up to \$300 a year by not having to buy any fuel cells!

Applications

Finish and Trim, Baseboard, Cabinets, Caskets, Chair Rail, Decorative Trim, Door & Window Casing, Furniture Trim, Paneling

Features and Benefits

- Patented Design - Instant trigger response
- Aluminum Drive Cylinder, Rugged Aluminum Magazine Resistant to damage
- Eco-Friendly Energy - 18v Li-ion Battery - Powerful and consistent
- Selectable Drive Switch - Contact or sequential actuation
- Nose Mounted LED Light - Illuminated work surface
- Adjustable Belt Hook - Left or right mount
- Thumbwheel Depth-of-Drive - Perfect countersinks
- Innovative EZ-Clear Feature - Clears jams fast

Specifications

Item#	5N0001N
Selectable actuation trigger	
Tool Weight	6.2 lbs (2.81 kg)
Height	13.5" (343 mm)
Length	13" (330 mm)
Width	3" (76 mm)
Fastener Capacity	110
Battery	18v Li-ion
Charger	80% in 15 minutes 100% 45 minutes

15 Ga. 34° Angled Strip Finish Nails

SENCO®

Performance. Power.
Productivity.™

F-15

No Gas. No Hose. No Competition.

15 Ga. 34° Finish Nailer The World's First Cordless Pneumatics Features

Patented Reflex Shot Design

Robust Aluminum Drive Cylinder

Durable & ultra-light

Selectable Drive Switch

Sequential or Contact Actuation

Tool-free Adjustable Depth-of-Drive

Allows user to achieve the right depth of countersink

Nose Mounted LED Light

Illuminated work surface

No-Mar Pad

Protects woodwork

Eco-Friendly Energy

18v Li-ion Battery with LED Charge Indicator

Adjustable Belt Hook

Lets the tool go where you go

Innovative EZ-Clear Feature

To clear jams fast

Choose the right actuation mode!

Sequential Actuation (also known as restrictive trigger or trigger fire) operates in the following sequence - depress the safety element at the nose of tool against the work surface then pull the trigger. After each fastener is driven, release the trigger and lift the tool off the work surface before starting the sequence again. This trigger is recommended and acceptable for most applications.

Contact Actuation (also known as dual action, bounce or bottom fire) operates in the following sequence- pull the trigger first and keep the trigger pulled while moving the tool along the work surface with a bouncing motion, depressing the safety element at the nose of the tool against the work surface where the fastener is to be driven. This trigger is recommended for use by trained professionals only in high production or volume applications.

Always read the Operators Manual and Safety Instructions with all tool to ensure proper use and safety precautions. For additional information on trigger systems and how SENCOR will save you time, reduce costs and increase quality, call our toll-free Action Line: 800-543-4596, or visit our website at: www.senco.com
